Dear Hiring Manager,

I am a designer specializing in graphic design and advertising, focused on creating visually compelling work that communicates ideas with clarity and purpose. My work is grounded in strong design principles and driven by the goal of developing creative solutions that are both strategic and impactful. I approach each project with careful attention to typography, layout, color, and visual hierarchy to ensure the message is clear, engaging, and effective.

With experience using Adobe Creative Cloud, I create cohesive brand materials, advertising campaigns, and digital graphics that maintain consistency across platforms. I value thoughtful concept development and believe successful design balances creativity with intention. Each project is an opportunity to solve a problem, strengthen communication, and create a meaningful connection with the audience.

I bring a detail-oriented and organized approach to my work, allowing me to manage projects efficiently while maintaining a high standard of quality. I am committed to continuous growth and refining my skills in order to produce work that is both visually distinctive and professionally executed.

Thank you for taking the time to review my portfolio.
Sincerely,

Maliyah Ross
